June 13, 2007

Mr. Albert Lin  
UV/EB Technology  
Technical Director, TIP  
710 Ohio Street  
Buffalo, NY 14203

Dear Albert,

Per our phone conversation yesterday, I am confirming that the samples we received from you are fully recyclable and that the coatings and inks do not make the scrap cuttings unacceptable. The samples were commercially prepared with Henkel's Mirafoil UV Silver coating and UV topcoat on coated CIS paperboard and recycled board.

Should you customers have the need, please put them in touch with us.

Best regards,  
Donco Paper Supply Company
